

KOMAL B. PAWAR

Front-End Developer | React.js Developer

Pune, Maharashtra, India | +91-7083249863 | komalpawar05051997@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Front-End Developer with 4 years of experience building modern, responsive, and scalable web applications with React.js and JavaScript (ES6+). Skilled at converting UI/UX designs into clean, reusable, production-ready components, integrating RESTful APIs, and managing application state with Redux. Comfortable collaborating with backend engineers, designers, and product stakeholders in Agile teams, participating in code reviews, and optimizing performance and cross-browser compatibility. Actively building hands-on depth in TypeScript, Next.js, and CI/CD workflows; immediately available and open to relocation.

KEY QUALIFICATIONS (ALIGNED TO ROLE REQUIREMENTS)

- **Front-End Development:** 4 years hands-on building modern, responsive, scalable web applications and reusable, maintainable UI components with React.js and JavaScript (ES6+).
- **Design-to-Code:** Consistent track record translating UI/UX designs into high-quality, production-ready interfaces.
- **API Integration:** Proven experience integrating RESTful APIs and handling dynamic, asynchronous frontend data.
- **State Management:** Practical experience with Redux for predictable, scalable application state; comfortable adaptin.
- **Dashboard Design & Development:** Experience designing and building responsive, data-heavy dashboards with reusable UI components and live API-driven data.
- **Responsive & Cross-Browser UI:** Mobile-first, cross-browser-compatible interfaces using Tailwind CSS, Bootstrap, and modern CSS.
- **Performance & Debugging:** Experience optimizing loading speed and application performance, and using Chrome DevTools for browser debugging.
- **Collaboration & Agile:** Regularly partners with backend developers, UI/UX designers, and product stakeholders; active in Agile ceremonies and code reviews.
- **Tooling & Version Control:** Git/GitHub, Webpack, Jira, and AI-assisted development tools.
- **Growth Areas for This Role:** Building hands-on production experience with TypeScript, Next.js, Vite, unit/integration testing, CI/CD pipelines, and authentication/authorization concepts — strong React/JavaScript fundamentals support fast ramp-up.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design
- **State & Data:** Redux, React Router, Axios, REST API Integration.
- **Build & Tooling:** Webpack, Git, GitHub, VS Code, Chrome DevTools, Jira, AI-assisted development tools
- **Core Concepts:** Component-Based Architecture, Dashboard Design, Reusable UI Architecture, Cross-Browser Compatibility, Performance Optimization, Browser Debugging
- **Currently Building:** TypeScript, Next.js, Vite, CI/CD workflows

PROFESSIONAL EXPERIENCE

Front-End Developer | Tritan EV Dock

2022 – Present

- Develop and maintain modern, responsive, scalable web applications using React.js and Tailwind CSS, translating UI/UX designs into clean, maintainable, production-ready code.
- Design and build reusable, maintainable component-based UI and data-heavy dashboards following mobile-first design principles.
- Integrate RESTful APIs and third-party data sources, managing dynamic, asynchronous frontend data across features.
- Implement state management with Redux to keep application data consistent and predictable.
- Optimize application performance and loading speed, and ensure cross-browser compatibility.
- Collaborate closely with backend developers, designers, and product stakeholders to plan and ship new features.
- Participate in code reviews, identify and resolve bugs and technical issues, and maintain development standards.

PROJECTS

EV Charging Management Dashboard (React.js | Redux | Tailwind CSS | REST API)

- Designed and developed a responsive, data-heavy dashboard for EV charging management, including dashboard layout, reusable UI components, centralized state management, and live API integration.

Mathlete Educational Platform (React.js | Tailwind CSS)

- Designed responsive, mobile-first educational landing pages with modern, interactive UI sections.

EDUCATION

- MCA — Government College of Engineering, Karad, Maharashtra (2021)
- BCA — Sadguru Gadge Maharaj College, Karad, Maharashtra (2018)

ADDITIONAL INFORMATION

- Languages: English, Hindi, Marathi | Nationality: Indian | Passport: Valid passport available | Relocation: Ready to relocate immediately
